

## Installation of the software platform (KNIME -Desktop)

Download the installation files (marked in red).

- (1) Execute the download file KINME -Desktop in a directory of your choice.
- (2) Start *knime.exe*

You will be asked about the workspace-directory (this is the directory, where your workflows will be saved by default). Choose a directory and enable 'Use this as the default and do not ask again'

(3) In the next dialog window click *Open KNIME workbench*. This is the KNIME - desktop where you can configure and run your workflows.

(4) Go to [Help]  $\rightarrow$  [Install New Software...] and open the link "Available Software Sites". Enable the three software sites as depicted in the image below.
